Aberdeen Section

## 5th European Sand Management Forum

**Manage sand -  
manage your costs**  
21st & 22nd March 2012  
Aberdeen, Scotland UK

## Call for Abstracts

### Deadline 30th September 2011

**The Sand Management Network and Society of Petroleum Engineers Aberdeen have again combined their forces for this biennial, knowledge-sharing conference.**

As sand production issues become ever-more important to the economics of the oil and gas industry, this forum has become the European gathering of authority on the subject.

**Abstracts of 100 to 200 words** are now invited for presentations. The conference will encompass sand management strategy and global sand management, on and offshore. Case studies describing failures and lessons learned as well as successes, or HSE policy and regulatory requirements, will be welcome. Topic areas of particular interest include:

- Sand prediction and monitoring
- Surface facilities/topsides
- Sand control selection
- Sand control for unconventional resources/reserves
- Remedial sand control
- Well preparation for optimal sand control
- Solids lift/transport modelling
- Formation damage and sand management
- Heavy oil reservoir management
- HP-HT and condensate reservoir management
- Asset completion and integrity
- Water injection
- Laboratory measurements
- Approach to screen conformance (removal of gap between screens and formation)

### Submitting Abstracts

Abstracts of up to 200 words with title, author/presenter details should be submitted online at [www.rodgerandco.com](http://www.rodgerandco.com) on the SPE Aberdeen page. Deadline for abstracts 30th September 2011.

Contact the organisers for details of exhibition and sponsorship opportunities
